CLIPPERTON operation firming up for next spring; recall that an attempted FO8C trip was foiled last March when a suitable boat could not be found in Mexico. Informed sources say a group of U.S. and European DXers will leave San Diego March 27, 1985, and return April 18; the boat they have located is faster and more expensive than what they had planned on before, and will allow the group about nine days on Clipperton. An added treat is they hope to be able to put Revilla Gigedo, XF4, on for one day enroute to Clipperton and for another day on the way back!

The operating crew includes most of the 1984 team; several slots remain to be filled, if licenses from Paris come in time. Three 3-Kw generators are being purchased for the trip, and will be up for sale after the operation. The aborted operation in March 1984 cost \$14,000 (lost), and expenses for a successful operation in 1985 are estimated at \$55,000-60,000. Most of the funds are coming from the operators, with help from the No. Cal. DX Foundation. Operators coming from Europe (for the second time) are burdened by the higher transportation costs and the strength of the Dollar, as the boat will be paid for in U.S. Dollars.

ANDAMANS possibilities still in limbo...VU2RG, Rajiv Gandhi, will be India's Prime Minister until at least Dec 24, when national elections are scheduled; VU2SON, one of the recent Laccadives operation team members, is either Rajiv's wife or his daughter...we have heard both. The Callbook has them with the same last name and the same address.

S SANDWICH: nothing heard from the VP8ASR (G4GHP) group as we go to press; they had hoped for a short operation from Thule Island around Nov 15 (Issue 259). Word still filters out of Europe about a major operation to take place in about a year.

SAN FELIX wrap-up in from the Radio Club of Chile, reporting more than 31,000 contacts on 160-6 Meters, SSB and CW. They say "The only authorized source to validly issue QSL cards confirming contacts with CEOAA is RADIO CLUB de CHILE (PO Box 700, Santiago Chile).

PRB-1 DEADLINE EXTENDED to Dec 24...this ARRL request for a declaratory ruling from FCC regarding towns' rights to restrict antennas (Issue 261) is being battled by the National League of Cities, who say that FCC can't tell them how to control towers and antennas. It is important for you to file comments with FCC...send ARRL headquarters a SASE with 88 cents postage and they will send you a copy of the League filing and instructions for making your own comments to FCC.

WORLDRADIO for December has lots of interesting news for DXers; for example, Jacky Mandary, 3B8CF, was at the ARRL convention in Boston back in September, and was interviewed by Alan Kline, KB1DJ. Jacky, who works for the weather bureau on Mauritius, was in the States for some schooling. You may know that his 3B6CF trips to Agalega are to check out weather stations there. Jacky took and passed the U.S. exams for Novice through Advanced, and barely missed passing the Extra. The problem there? The questions he missed were related to the new Volunteer Examining Program procedures. The technical exam was no sweat, said 3B8CF.

 $\frac{\text{NOT MANY}}{\text{CW Contest}}$ expeditions on tap for the upcoming $\frac{\text{CQ}}{\text{CW W}}$ WW Contest (Nov 24/25), but Martti Laine, OH2BH, and Ville Hillesmaa, OH2MM, have come through...Martti will operate CT1BCM, and Ville will be at YBOARA. Both are going to challenge the existing continental all-time records for Europe and Oceania, despite the falling sunspots.

Martti will need over three million points from Portugal to break YU3EY's 1982 European record; he will be praying for a 10 Meter opening to North America and Portugal will get such an opening if anywhere in Europe does. Three million points will require about 3000 contacts and a multiplier over 400.

N6BT/AHO's 1981 Oceania record of 4.2 megapoints will be a tough one for Ville, although YBOARA is well-situated to produce quantities of 3-point JA contacts on all bands. That's precisely how the record was set, as N6BT/AHO made over 4000 contacts but his multiplier was only 349. Ville will be looking for a much higher multiplier, as well as many contacts into the U.S. and Canada on the Low Bands.

BRUNEI'S first Ambassador to the United States is Pengiran Haji Idriss, V85PM. He is in Washington now, busily setting up shop, just a year after Brunei's gaining of independence from Britain. According to the New York Times (Nov 7), Ambassador Idriss says "United States ham radio operators probably know more about (his) small, remote country than any other group of Americans, a situation (he) hopes to change...if you would collect 1000 Americans" (says V85PM), "you would get the most information about Brunei from the ham operators." The Ambassador and his family have settled in a house in suburban Washington which rents for eight thousand dollars a month.

KD7P SCHEDULE: from Minami Torishima as KA2MI Nov 29 to Dec 6, and from Ogasawara, KA2IJ, Dec 7-14. Bob likes the Low Bands especially, and will look for Europe on 20 Meters around 0900Z.

The DX Bulletin (ISSN 0279-8077) is published fifty times per year. Subscription rates available upon request. The DX Bulletin is published at Burnap Brook Road, Andover, CT 06232: Second-class postage paid at Andover, CT. POSTMASTER: Send address changes to The DX Bulletin, Andover, CT 06232.

FIVE YEARS AGO IN THE DX BULLETIN

November 21, 1979: BIG NEWS was 6 Meters; we reported on band openings the first week of November which saw West Coast stations working EI2W and a number of W1, W2, and W3s working Japan. That first week of the month the sunspot number averaged 219 and solar flux was running over 300, the highest since 1959.

The WARC news blackout was still in effect as the Conference entered its last two weeks. Committees were now reviewing recommendations of the working groups and the Conferrees were working long hours to try to finish their job on schedule. It was clear that three new HF bands were being asked for and rumor was that chances were good that we would get them.

FCC announced that it was discontinuing "field examinations" immediately; no more test-taking at hamfests and conventions. The quarterly examination points were not affected. W6KG and W6QL finished 10K contacts from Grenada, signing one of the first new callsigns, J3ABV; they next stopped at St. Vincent, to operate VP2SAX through the \underline{CQ} CW Contest. The first word was filtering out of Papua New Guinea that P29JS was interested in Heard Island. U0Y closed down their Zone 23 operation, and LU3ZY S. Sandwich was as elusive as ever. W4LCL arrived in Indonesia to begin a long run as YBOACL, although he didn't get his gear out of Customs in time for the \underline{CQ} Phone Contest.

35TH ANNUAL W1 DXCC DINNER observations...XU1SS and VU7WCY video tapes were fairly well-received. K1KI gave an interesting talk on amateur radio in Russia and on the Great Oblast Hunt. Don Search of ARRL headquarters updated DXCC news; although every single question he was asked had already been answered in past issues of TDXB. Incidentally, Don announced that the DXCC Annual List will NOT appear in December QST (as originally scheduled), and may not even make January. A "DXCC Countdown" was conducted for the first time, ala the W9DXCC Dinner tradition. W1RR's DX Quiz (we will try to fit it into this issue) drew heavily from TDXB material (such as the VK3QI charts), and the winners were all TDXB readers. W100 took top prize, a year's subscription. K3ZO showed after-dinner slides of the Oct 1983 HKOTU Malpelo operation.

LETTERS

"In Issue 262 you printed a band-by-band report on the CQ WW Phone Contest; I assume it was from an East Coast station. A different perspective from the West Coast is in order. Words like 'rock-crushing' signals from Europe on 40 Meters do not exist (here). My 40 Meter 3-element beam does not hear that kind of signal. I would be more than happy to trade a VK9MR QSL for a 5R8AL; my comments are intended to point out the large difference in propagation conditions between the two Coasts, and not to disparage the article itself."

----Andy Anderson, K7GEX

W1RR DX QUIZ - 1984 W1 DXCC DINNER

- 1. In which \underline{CQ} Zones might a station operating at the geographic South Pole claim to be operating from? (seven answers).
- 2. In the \underline{CQ} WW Contest, you work the following stations...how many country and zone multipliers do they count for? HZ1HZ, ZS5LB, VO2CW, 7P8CM, FP8AP, XN1ASJ. (Answer is total countries and zones).
- 3. Which four DXCC countries in the USSR may have the letter "Z" as the second letter of the prefix? (four answers).
- 4. If you were operating from Dublin Ireland, in which direction, within fifteen degrees, would you point your beam for the Faroe Islands?
- 5. Name the North American French DXCC countries (five answers).
- 6. What are the first names of these DX operators? 9N1MM, S79WHW, E19J, ZL2BT, VK9NS, UW9AR, ZD7BW, VK6HD.

7. Match prefixes with countries:

Benin Burundi Cameroun Gabon Malagasy Malawi Mali Rwanda Zaire Zambia

TJ, TR, TY, TZ, 5R, 5V, 5X, 7Q, 9J, 9Q, 9U, 9X

8. In which ocean is each of the five VK9's?

Christmas Norfolk Cocos-Keeling Willis Mellish

9a. How many DXCC countries are there currently on the ARRL Countries List?

- 9b. How many of those countries have had no amateur radio operations counting toward DXCC in the last ten years?
- 9c. How many deleted countries are there?
- 9d. How many DXCC countries are there within 6,000 miles of Boston? (Answers on page 4)
